time to shine

Think only straight hair has the ability to reflect the light? No way! For super-glossy curls, part damp hair off-center and blow-dry with mousse and a round brush. Prep with thermal protection lotion, wind sections around your curling iron, then spritz a shine-enhancing hairspray all over.

15. Trendy cuts come and go, but long, full hair with tons of volume will never fall out of fashion. Have layers sliced in to boost movement and reduce bulk, then use a diffuser and curl-boosting products to style.

Hair by Anthony Nader, Raw, Darlinghurst, NSW. Photo by Joseph Gerano. Makeup by Robert De Rooze. Stylist: Penny Hunt.

16. Bobs don't have to be serious or staid. Keep yours youthful by brightening up the color around the face and styling asymmetrically. Blow-dry with a vent brush and gloss over with shine drops.

17. Adding big bouncy curls is a snap with a good curling iron. Work around the head in sections; spray each one with pump hair-spray and let it dry, then wind the iron from root to tip for long-lasting curls.

18. Have you heard? The center part you loved in the '70s is regaining steam. Instead of the pin-straight locks Marcia Brady wore, make your middle part modern by coupling it with long waves.

Hair by Mick Luppino, Luppino's, Fairfield West, NSW. Color by Nancy Rao. Photo by Simon Lekias. Makeup by Justine Purdue. Stylist: Tiana Wallace.

19. Your cut doesn't have to be trendy to be current. When you stick with a classic style—like long locks with layering and a few highlights—you'll never look dated or off the mark.

20. A heavy fringe makes every style look fuller, and adds an especially sexy touch to long strands. Blow-dry bangs smooth and over to one side then work through the rest of hair with a curling iron for loose waves.
